Good morning. I am an international student in my senior year majoring in computer science. I am expected to graduate May 2026. I have made some changes to my course schedule and I want to ensure that I'm allowed to proceed with this schedule. I currently registered for 20 credits as I am planning to drop a course. Since this is my final semester, I just want to double verify and confirm that I am eligible to get credits for all the courses that I currently registered for and added to my schedule so that I can graduate. Could you please take a look at my course schedule and let me know if I am eligible to get credit for all the courses (all 20 credits) in my current schedule? Thank you.

Dean Mary Kate Schiff has joined the chat.

Dean Mary Kate Schiff (11:04:41) : hello - please give me a moment to pull up our information

Dean Mary Kate Schiff (11:06:36) : your GPA is excellent

Dean Mary Kate Schiff (11:07:08) : you need 17 credits to reach 120

Dean Mary Kate Schiff (11:07:52) : your SAS core will be complete after this semester

Dean Mary Kate Schiff (11:08:35) : your CS major looks good as well

Dean Mary Kate Schiff (11:08:36) : will

Dean Mary Kate Schiff (11:08:42) : wow! haha Well***

Dean Mary Kate Schiff (11:09:00) : I would recommend reaching out to the CS department to confirm your major requirements as well

Dean Mary Kate Schiff (11:09:17) : <https://www.cs.rutgers.edu/academics/undergraduate/advising>

Yuvanshankar Mahesh (11:13:57) : Thank you. I believe I completed my SAS core before this semester. I confirmed my CS major requirements with the CS department. I will drop a course in the future to get it to 17 credits. The extra course is a placeholder. However, I would really like to know if I am eligible to get credits for all these courses in my current schedule (ie:- None of these courses have restrictions that would prevent me from taking them). I just want to double verify and confirm that so that I can graduate this May 2026. Thank you.

Dean Mary Kate Schiff (11:17:35) : okay - DN pulls the most current registration

Dean Mary Kate Schiff (11:17:43) : which is why it was pulling under AH

Dean Mary Kate Schiff (11:17:52) : great to hear you spoke with CS already

Dean Mary Kate Schiff (11:18:35) : yes - you are good to go. I doubled checked and as of today - you are not registered for a course you have already received credits for

Yuvanshankar Mahesh (11:27:11) : Thank you so much for that. I'm only asking this because certain courses have restrictions where they do not allow seniors or only reserve it for certain majors. Thank you for confirming that none of the courses I currently registered for have those restrictions and that I can proceed with this schedule (in the meantime I will get it to 17 credits). Thank you for your time.

Dean Mary Kate Schiff (11:28:27) : yeah - that's correct. but really they can be any course you are interested in taking. Aside from the CS course.

Dean Mary Kate Schiff (11:28:45) : needing to be careful of the restrictions or prereqs

Yuvanshankar Mahesh (11:33:14) : Got it. Since it is confirmed my schedule is clear, I will proceed with this. Thank you for your time and have a great day!

Dean Mary Kate Schiff (11:34:16) : you as well

Dean Mary Kate Schiff (11:34:20) : good luck this semester
